Kids experimented with salt to see how it reacts with water to help create an affect on their matesterpiece.

Wayne, our tour guide and sculptor, lead the group around to see the variety of sculptures. While on the tour he explained the process to make the variety of masterpieces there. The 'quickest' sculpture takes 3 weeks! All of the sculptures are made in St Lawrence (near Miller, SD) and are trucked to the Sculpture Park.

After the tour some families stayed and had a picnic at the park.
